

**WE DO THINGS
DIFFERENTLY**

TEICHMANN
STRUCTURES

Established in 2014, Teichmann Structures forms part of the Teichmann Group of companies, which has been in operation since 1995. Since inception, the Group has grown exponentially and is now active in the Mining, Exploration Drilling, Civil Construction, Bulk Earthworks and Roadworks, Agriculture and Plant and Equipment Hire sectors.

FOOTPRINT

The Teichmann Group operates throughout Southern and Central Africa and has offices in South Africa, Namibia, the Democratic Republic of Congo, Mozambique, Tanzania, Ghana, the Central African Republic, Botswana, Liberia and Zimbabwe. These African operations (excluding South Africa and Namibia) are managed from the Group's main offices in Mauritius.

Teichmann Structures (Pty) Ltd, with our head office in Johannesburg, South Africa, forms an additional business in the execution of Civil Construction in the Group. Our status as a preferred contractor with our clients is based on our ability to offer an all-inclusive construction and management solution. Cost-effectiveness aligned to alternate construction methodologies and programme optimisation, technical expertise and our value engineering capability allows us to be innovative through our execution for the mutual and rewarding benefit of all stakeholders. This has unquestionably been recognised by our valued clients and further supports our clients in meeting their own business objectives. Our achievements have been nationally recognised and we have been the recipient of prestigious awards in the Construction and Steel Sectors.

Fulfilling a contractual obligation is merely a part of the process. At Teichmann Structures, our unrelenting commitment to achieve successful and effective outcomes for our clients is our priority and shall always remain at the forefront of our service to our clients.
